

## *It's Baby Season!*

**\$1450** USD photo experience only

Lodging, meals, travel to/from site and tips are not included-ask about ride sharing and lodging options **\*Minimum 6 participants-max 10**

Unforgettable 3-day photo workshop experience with prime juvenile and baby North American wildlife species-professionally trained for optimum images.

This custom workshop will include a minimum **12 animals**: (8) primary animals...possible subjects are cougar, black bear, bobcat, lynx, red fox, gray fox, coyote, weasel, whitetail deer or wolves; (4) secondary animals may include raccoon, porcupine, skunk, woodchuck or opossum. Selections will be made with group input and the handlers. Babies may be offered in groups, singles or with an adult.

These animals are in prime condition and will be shown in a variety of spring settings including local wildflowers. MWC's expert handlers take great care of their animals and know what artists & photographers are looking for in behavior and set-up. You will not be disappointed!
